

Success is a journey not a destination

R.E.A.C.H inspirational Series one (Part3)

One of the most powerful gifts people have been given on this planet is **responsibility**.

The word **responsibility** actually means **response-ability**; the ability to respond to any given situation with absolute freedom of **choice**.

The responsibility that **you choose** in life will determine what **you achieve** in life.

Here are **5 steps** of responsibility

You must be responsible:

1. For all of your actions.

(Responsibility for everything you do, no excuses)

2. For being the creator of any experience.

(Responsibility for everything you want to achieve in life)

3. For anything that happens in your reality.

(Responsibility for your circumstances, where you are now)

4. For what others do to you.

(Responsibility for what someone does to you, you attract what you are)

5. For what others do to others.

*(Responsibility for **what people do to each other**, take charge take responsibility)*

Are you responsible for these 5 steps in your life?

Success is inevitable once we choose to accept our responsibilities.

Have a positive and awe-inspiring week
